Hyderabad, Telangana | +91 9885874495 | vishnugoud2020@gmail.com | [LinkedIn](#) | [GitHub](#) |

CAREER OBJECTIVE

Aspiring Software Engineer and AI enthusiast with strong skills in Python, SQL, Flask, and backend application development. Experienced in building AI-powered applications using NLP, REST APIs, and Generative AI concepts through academic projects and internships. Skilled in debugging, problem solving, database management, and collaborating in team environments. Eager to contribute to LTM by developing scalable software solutions and learning new technologies in AI and enterprise applications.

EDUCATION

CMR ENGINEERING COLLEGE 2023 - 2027

BACHELOR OF TECHNOLOGY, COMPUTER SCIENCE ENGINEERING –AIML

- GPA: 7.2

GOWTHAMI JUNIOR COLLEGE 2021 - 2023

INTERMEDIATE

- GPA: 7.45

ZPHS KUSUMANCHI 2020 - 2021

SSC

- GPA: 9.7

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, Java (Basics), Pandas, Numpy
- **Web & Backend:** Flask, REST APIs, Streamlit, HTML, CSS
- **AI / Machine Learning:** NLP, Scikit-learn, NLTK, spaCy, Generative AI (Gemini API)
- **Databases:** SQL, MongoDB
- **Tools:** Git, GitHub, VS Code, Google Colab, Jupyter Notebook
- **Core CS:** Object-Oriented Programming (OOP), Debugging, Exception Handling, File Handling, Data Structures (Basics)

WORK EXPERIENCE

Data Analytics Specialist Language Processing at Yuva Intern May 2026 - Jun 2026

- Analyzed structured and unstructured text data using Python, OOP, NLTK, and spaCy.
- Developed backend language-processing scripts with exception handling and file processing.
- Integrated SQL databases for storing and retrieving processed language data.
- Documented debugging steps and troubleshooting solutions for data workflows.
- Collaborated with the team to resolve processing issues and improve pipeline reliability.

Machine Learning Intern Aug 2026 - Sep 2026

- Developed Python machine learning applications with scikit-learn, spaCy, and NLTK for sales forecasting, support ticket classification, and resume screening,improving accuracy by [number]% and processing speed by [number]% built Streamlit interfaces and managed Github version control and deployment saving[number] hours.

PROJECTS

AI-HEALTH CARE CHATBOT | [Link](#) | Jan 2026 -Mar 2026

- Developed an AI-powered healthcare chatbot using Python, Flask, REST APIs, and Gemini API.
- Implemented request validation, exception handling, and backend debugging for reliable responses.
- Integrated NLP-based query processing for real-time healthcare assistance.
- Logged application errors and improved response handling to support troubleshooting.

Hospital Management System with AI | [Link](#) |

Jun 2026 - July 2026

- Built a Python-Flask web application for managing patients, doctors, appointments, and medical records.
- Connected SQLite/MySQL databases for CRUD operations.
- Implemented AI-based symptom prediction using machine learning.
- Debugged backend APIs and optimized database queries for better application performance.

Enhanced Banking Management System | [Link](#) |

Aug 2025 -Sep 2025

- Developed a console-based banking application using Python and Object-Oriented Programming.
- Implemented PIN authentication, transaction history, deposits, withdrawals, and balance inquiry.
- Used file handling, exception handling, and debugging techniques for reliable application behavior.

CERTIFICATES

- Smart India Hackathon Participation Certificate-CMR Engineering College
- Hexart.in- AI Foundation Certificate
- Participation Certificate: AI & DEEP LEARNING
- Certification of Completion: Generative AI with AWS
- Participation in the Cognizant Technoverse Hackathon 2026
- Deloitte Certification – Job Simulation in Technology
- Internship for Data Analytics Specialist-Language Processing at Yuva Intern
- Completion Certificate for Machine Learning Intern at Future Intern
